Instructions:

Aproximated installation time: 30 min.

- 1. Read and understand instructions completely before beginning installation.
- 2. Sidebar set consist of a driver and passenger side. Be sure to determinate the correct side before installation.
- 3. Remove the six applicable body mounting bolts from the vehicle. These bolts are not reused in this installation. The body steel washer plates and rubber cushions are reused between the body mount and the sidebar mounting brackets.
- 4. Position de mounting brackets up under the body mounts. Install M12 x 120mm hex head bolt, 1/2" flat and lock washers through the hole in the mounting bracket and the body mounting washer plate and rubber cushion as shown. Note: Place a spacer washer between the central mouting bracket and the body mounting washer plate and rubber cushion.
- 5. Place the sidebar up to the front and rear mounting brackets and bolt using the 1/2 x 1 1/2" hex head bolt, flat and lock washer. Secure to the central mounting brackets using 3/8 x 1" hex head bolts, flat and lock washers. Leave loose.
- 6. Make any final adjustments to the alignment of the sidebar and tighten all bolts. Repeat for the opposite side.
- 7. You may need to periodically re-tighten the bolts.

Cleaning and care instructions:

Diseño:

Calidad:

Protect the finish with a non-abrasive automotive wax, (e.g. Pure Carnauba) on a regular basis. The use of any soap, polish, or wax that contains an abrasive is detrimental to the finish, as the compounds scratch the finish and cause corrosion.
